

How Big Did It Grow???

Introduction:

Mr. Gunkelman and Mrs. Schenck purchased 100 “Magic Growing” toys from GS Inc. to use as rewards for their Physical Science students. To their displeasure, many of the students claimed the toys did not grow _____, as the packaging claimed. Mrs. Schenck filed a claim with GS Inc. to get their money back but was informed without data to back up her claim, GS Inc. would not issue a refund. It is your group’s responsibility to create an experiment that will help support the claim.

Driving Question:

How can we, as scientists, determine the validity of this claim?

Materials:

- Dinosaur
- Water
- Beaker
- Ruler
- 30 cm of string
